

## packing instructions

1: Start by looking for instructions in plastic sleeve attached to the lid, Next start loading extra parts, etc. in the compartment at the bottom of the shipping case.

2: Continue by loading the arched frame pieces in a single layer on the bottom of the case as shown. Load smaller frame pieces, using all available space. Lay a single cardboard insert over the entire layer, being sure it lays as flat as possible.

3: Next load remaining frame pieces on top of the cardboard insert. Cover the layer with another cardboard insert.

4: Finally load the fabric graphic, lights (in shipping tubes), spare velcro, and other miscellaneous parts.
